

Champions for Nature Webelos (On Your Own)

Champions for Nature Webelos is an elective adventure. If a Scout chooses to earn it, and missed the August 3 Den Meeting, then please complete these tasks **prior to March 1, 2026**.

Tasks to Complete if you missed the **August 3** Den Meeting:

1. Read pages 191-193 in the Webelos Handbook and discuss with a parent the four components that make up a habitat.
2. Read pages 194-197. Select an animal that is endangered and research that animal.
3. During your research, you should find the answers to the questions below. You must share what you learned with your parent. **Have a photo taken of you while you are researching your animal and send it to me.**
 - What is the name of the animal?
 - Where does it live (what is its habitat)?
 - Approximately how many are currently alive in the wild (not in zoos)?
 - How many did there used to be before they became endangered?
 - What caused it to become endangered?
 - What is being done to help protect this animal?

Email or text all required photos to me at webelospack13@gmail.com or 702-339-2401.

There will be additional activities done at future Den Meetings to complete this adventure.
